

12 February 1968

MEMORANDUM FOR THE RECORD

SUBJECT: Presidential Library Project
Discussion with Mr. Walker of National Archives

1. In an effort to clarify the "Cut off date" I contacted Mr. Walker at National Archives today. He explained that they had originally asked for material with dates between November 1963 and June 1967. He said this was an effort to assist the Agencies. Actually any "cut off" date should be whatever is most convenient for the filing systems of the Agency concerned. National Archives had suggested June 1967 because they felt that would be the best point from which to resume later on.
2. He said his office was assuming we would not have any material or photos that would be well suited as exhibits in the library. I said I would check but I felt his assumption was probably correct.
3. He said he would send me copies of the various announcements used by the Treasury Department and other Agencies to publicize the Library Project and to instruct offices in procedures for submitting material for transfer to the library.
